

## ASSESSING

**Does your facilities management team require their professional knowledge to be assessed? As a qualified and independent assessor, I am here to help you.**

Nothing done to, or for, learners is more important than the assessment of their work and the feedback provided to them on it. The results of an assessment will influence learners for the rest of their lives through the impact it has on both their motivation and self-esteem.

Assessments provide staff with an appreciation of their own limitations and constraining factors, such as knowledge and experience. These records, confirming the competency of staff, could prove critical in the event of litigation following an accident or incident.

### Why use SO FM?

- Experienced facilities management assessor.
- Qualified in assessing vocationally related achievement to QCF Level 6.
- Fast, efficient and professional service.

### So, what do you receive from SO FM?

- High quality assessment feedback.
- Additional 'general' feedback to improve overall future performance.
- Links to resources for future use.

### What assessing services are offered?

- Holistic assessment of your facilities management team.
- Generic or specific assessments based upon your organisation.
- Assessment of IWFM (formally BIFM) Unit Assessments at QCF Levels 3 to 6.

For more information, visit my website at: <https://www.sofm.co.uk/>.

We are all students in the pursuit of information and knowledge. And as John Cowan, formerly a Director of the Open University, said, ***“Assessment is the engine which drives learning.”*** When was the last time you assessed your facilities management team?
